Working at height solutions and training

MCL
Height Safety

We're height safety specialists.

Operational Services

Our project history covers basic building maintenance to complex installations of roller coasters. Nothing is impossible!

Our work includes, but is not limited to, the installation of fall protection systems and window cleaning rails, LOLER and PUWER inspections, testing and certificating, design, fabrication, and installation of structures, structural surveys, building maintenance, and window cleaning.

Training

Our three fully accredited, dedicated, purpose-built training facilities are based in London and Humberside.

Training courses include:

- IRATA Rope Access
- Confined Space
- PFPE Inspection
- Anchor Bolt Installation & Testing
- Working at Height
- Rescue
- First Aid
- Manual Handling
- GWO (London only).

In addition, our training courses can be tailored to suit clients' needs, creating a truly bespoke experience.

Reasons to train with us.

- Over 60 years of combined trainer experience
- Globally recognised IRATA and GWO training courses
- 93% Pass Rate
- Multiple state-of-the-art training locations
- Wide range of in-house courses developed according to BS8454 provided under one roof
- Directly employed qualified trainers
- On-site design, fabrication and inspection service
- Equipment supply

Spread the cost of your training.

We recognise that training courses can sometimes seem like a big outlay, but knowledge and safety doesn't have a price.

When booking your training online with us you have the ability to pay in 3 instalments making payment more manageable.

Choose to check out using PayPal and select Pay in 3 at check out, and enjoy the power to split your purchase into 3 interest-free payments, with no setup fees or charges.*

PAY OVER 3 MONTHS - 0% INTEREST

*Please note the decision to pay in 3 lies with PayPal not MCL Height Safety

Working at height solutions and training

We've got you.

MCL
Height Safety

Installing all types of fall protection equipment.

We are proud partners of Kee® Safety, a leading, global supplier of fall protection systems, safety railing systems and safe access equipment for working at height.

We are highly experienced in fall protection and will always find a solution that is cost-effective without compromising quality. We can also deliver a One Stop Shop service for consultation, design, installation, training and the provision of maintenance and recertification programmes, that are compliant with British and European standards. We can offer a structured programme over an agreed time period to deliver your fall protection needs.

We can install all types of fall protection:

- Vertical & Horizontal Lifeline Systems
- Safety Railing Systems & Handrail Systems
- Abseil Rails
- Specialist access platforms
- Kee Walk® Systems
- Kee Guard® Skylight Screens
- Kee Hatch® Systems
- Kee Anchor® Systems
- Safe Access Solutions
